

Irrigation Technician

Part time / full time in our *Irrigation* area for candidates with experience in landscape sprinkler system installation and service. Knowledge of sprinkler systems, plumbing and electrical aspects and overall sprinkler system experience is preferred. Candidates with no prior experience and yet with mechanical/technical ability and basic plumbing knowledge are invited to apply. We have a training and mentoring program to help develop candidates with no or limited experience but a desire to learn the trade.

Ideal candidates should have a clean driving record, transportation and willingness to work in a team atmosphere and in the great outdoors. The work has some physical nature to it, and requires working in various types of weather and working at various locations in west side of Cleveland.
